DR. ANDREW PORTER - APPOINTMENTS

The Whickham Practice is a member of Gateshead Inner West Primary Care Network which is an organisation that represents the 5 GP practices in the Inner West of Gateshead covering a population of approximately 45,000 patients. This Network is an organization that works together to improve the breadth and quality of services on offer to patients and reduce health inequalities.

Dr Andrew Porter is the Clinical Director of this organization, representing the practice and ensuring that Whickham patients, GPs and staff have a voice in any discussion around changes and improvements to services.

As a result of Dr Porter's commitment to development of local services he may not always be available when you wish to make an appointment. However, the practice strives to maintain the number of appointments on offer by employing additional GPs wherever necessary.

The Whickham Practice is committed to providing the best possible health care services and we hope that you will support us as we work with Gateshead Inner West Primary Care Network to achieve this aim.
